Data Science and AI

Module X

Mini Project 2

Mini Project 2

- The **objectives** of this mini-project is to:
 - Apply all what you have learned so far
 - Prepare you for the **Capstone project**
 - Understand your **learning gaps**
- **We will give you a dataset (Housing data)**
- Please present as if it is **your job interview take-away test** on:
 - **Business aspects** of the project
 - Explore the data and be creative about what insights you could draw from it.
 - The default is predict the house price but don't be limited to this
 - **Outcomes**
 - Potential **additional insights** that can be obtained from available data
 - **Data analysis** and **Machine Learning** techniques used
 - **Gaps** in your skills

End of Presentation!
